## **THE INTERNATIONAL ALLIANCE OF INDEPENDENT PUBLISHERS**

Founded in 2002, the International Alliance of Independent Publishers is a non-profit association which coordinates an international network comprised of 85 publishing houses and groups of publishers from 45 countries – the Alliance represents directly or indirectly some 360 publishing houses. The Alliance organizes international meeting and carries out advocacy work to foster independence. It also backs international publishing projects — in the form of assistance with translation or copublishing. Finally, the Alliance contributes to the promotion and diffusion of productions from the South to the North and modestly tries to invert one-way trade flows. The Alliance thus contributes to enhancing the accessibility of works and ideas, to defending and promoting bibliodiversity.
